

Preliminary agenda - Workshop on 23rd of April 2020

Place Hotel Savoyen Vienna in Vienna, <https://www.austria-trend.at/en/hotels/savoyen>

- 8:30 Registration
- 9:00 Technologies to create coatings with nanocelluloses
- Durable surface treatment applications, Ulla Forsström, VTT
 - Production and characterization of nanocelluloses, Tanja Zimmermann, Empa
 - Open access surface treatment pilot facilities and demonstrations, Vesa Kunnari, VTT
 - Antifouling performance of nanocellulose coatings, Aji Mathew, SU
 - Safety assessment: outcome of the exposure measurements, William Brown, IOM
- 12:00 Lunch
- 13:00 Exhibition to present NanoTextSurf posters about technologies, demonstrations and demonstrators
- open access pilot facilities
 - drying of coating layers
 - coated membrane application
 - filtering application
 - textiles for work wear
 - friction materials
 - abrasive materials
- 14.30 Break
- 15:00 Invited speakers to support future exploitation of the project results
- Nanocellulose based materials and applications, to be confirmed soon
 - Applying thin coating layer with slot dye applicator, TSE Troller AG
 - Foam generation technology for coating applications, Hansa Industrie-Mixer GmbH &Co KG
 - Foam coating & screen-printing technologies, J. Zimmer Maschinenbau GmbH
 - Needs of future food packaging materials, Nestlé Research Centre, Food Contact Materials
- 17:00 Closing the discussion and final remarks
